Reading Matter on every page. THE KENTUCKY MECHANICS' INSTITUTE. SIXTH ANNUAL EXHIBITION.

We were gratified to see, last evening, a large, ashiouable and interested attendance at the Instiute Hall. This pleasant assemblage tarried until the sweet tones of President Kave's warning bell gave notice of the arrival of eleven o'clock, when it is supposed that all temperate and moderate seople should be tending homeward. Our citiens should make the most of the enjoyment afforded by the fair. The exhibition will close next Tuesday evening, with an address by W. L. Kelly, Esq.

Among the many articles of utility calculated o interest only a particular and small class of spectators, is

SLOAN'S IMPROVED WATER WHEEL. This is the invention of our ingenious fellow citizen, James Sloan. We do not profess to uuderstand hydraulics sufficiently to comprehend the scientific merits of this patent, but it is selfevident that it possesses manifold advantages over all other water wheels. It has been tested by various mill wrights, and found superior to the Hotchkiss and Parker patents. These wheels are manufactured at Barbaroux & Snowden's foundry. Mr. Sloan has published a pamphlet explaining the working of his invention. He is learned in such matters, and devotes his time and talents to cientific pursuits with the ntmost enthusiasm.

The Spanish Mission-Hon. Wm. Preston. It will be seen by our dispatches that the Presient has tendered the Spanish mission to our dis nguished fellow citizen, Hon. William Preston. t is not as yet, however, known at Washington

whether he will accept the appointment or de line it. The appointment is one of vast importance, from he fact that Cuba belongs to Spain, and ought to elong to America. With this rich Island in iew, the mission to Spain is far more important than that of England or France. It there is a man in this Union whose intellect, sagacity, tact, discretion, diplomatic skill, and nerve, can effect the annexation of Cuba to this country, it is Col. Preston. And if he can't get Cuba, he will, never theless, make one of the best, most accomplished, and most popular ministers that ever went from America to a foreign court. He would reflect onor upon his country in any court in the world. It is not known here, more than at Washington. hether he will accept the appointment or not. He has been mentioned in connection with the next ace for Governor of Kentucky, with marvelous manimity throughout the State. The press. rivate as well as public letters, and the freely expressed opinions of those who know and have induence, indicate clearly that the people intend

to make him their next Governor. ol. Preston will accept the appointment. He snows that there are other sterling Democrats who desire to make the race for Governor, and who claim it as a right from longer service in the party. It is clear, moreover, that the contest at his time will be in the convention, and that the nominee will be elected without the necessity of such a struggle as was pleasing to the gallant 'reston in 1855, when he offered himself as a wiling sacrifice upon the unhallowed altar of Know Sothingism in this congressional district. He has moreover, often told us that he would not be in the way of any one who wanted to make the ubernatorial race

We think, therefore, that Col. Preston will go Spain and make a vigorous fight for Cuba, inlead of an easy wrestle for the office of Governor this State. The popular voice which has poken out so unanimously in his favor for this me office, will commend his going abroad. The Democracy of Keutucky will agree that he can erve the party as well, if not better, at Madrid than at Frankfort, and they will not say a word against his going there. We have a plenty of ood Democrats in kentucky from among whom select a Governor, but we have but few men is the Union to whom the Spanish ministry should e given. This is one of the best, if not the very best, of the many appointments of President Bu

chanau. THEATER-THE NEW PIECE .- Two circumstance revent Miss Jones from meeting audiences of any aguitude; these are bad weather and the fatigueng excitement of attending fairs. The tide of musement seekers flows backward after two or three weeks of agricultural and other fairs, and remains in repose to gather fresh impetus. Considering that great drawback to a performer, a meager audience, Miss Jones did remarkably well ast night. There is nothing particularly trying in the character of Evadne, but the few strong passages were given with passionate earnestnes and a manner quite natural. The main impres. sion received from her style, is that it is simple and unartificial. She cvidently arrives at the in terpretation of her lines by the instincts of a true artiste. Her actions and positions, however, savor too much of square and compass or dictation Her voice is very rich and is generally moderated with a great deal of nicety. She was admirably supported in Evadne, by Messrs. Riley, Dickson and Keeble, in the respective characters of Colous. Vicentio and Ludovico. Miss Walker sustained

the character of Olivia. To-night a new tragedy called "Sybil," drma tized by Mr. Savage, editor of the Washington states, will be produced for the first time in Lousville. It is founded on the murder of Solomon . Sharpe by Orville Beauchamp, which occurred Frankfort, Ky., in 1825. That event, as may be remembered by many of our older citizens, caused a profound sensation. Col. Sharpe was a man of genius, had served several times in Congress, and was regarded as one of the first men in the State. Circumstantial evidence connected Beanchamp with the murder, and he was arrested and convicted. The night before the day of the execution, his wife killed herself in his prison and he attempted, but failed, to take his own life and was hung on the day appointed. The tragedy is said to be replete with startling and thrilling effects, and we think Miss Jones can wel play the part of Sybil, the heroine.

PROF. BENSON, OF THE UNIVERSITY MEDICAL SCHOOL .- Prof. Benson, recently elected to the Professorship of Anatomy, in the Louisville University, reached this city yesterday, with his amily. He has hastened his removal to this city in order to take part in the preliminary lectures now in progress.

We learn that the students already in attend ance at the University number more than double as many as commenced with the preliminary lectures last October, when the scho opened until the middle of the month. There is an excellent prospect for a large class at the University. We understand that the microscopic instruction and exhibitions will be of unusual interest, and students should not fail to enjoy their

SINGULAR TRIAL.—A singular trial is about to Singular Trial.—A singular trial is about to take place in Loubardy. A wealthy man of that section lately died who possessed two pictures by Ruhens—one the portrait of a woman, the other a zodiac—two pictures of high merit, and well-known in the country to which they belonged.—When the priest arrived to confess the dying man, he demanded to see the pictures of Renbens. They were shown him; he declared them indecent because they were nude figures of women, and refused absolution to the moribund nuless he gave orders for the burning of the pictures. He obeyed, was absolved, then died. To-day, the son and heir to the estate has brought suit against the confessor for having ahnsed the mind of the dying man, and diminished the value of the succession \$0,000 francs. Such a process, if intelligently conducted and pleaded, will be of immense value as a precedent.

THE FATAL PRIZE FIGHT IN NEW HAVEN .- Of the fatal prize fight hetween two Englishmen at New Haven, last week, the l'alladium gives the testimony of the only witness as follows: "I expected Metcalf would go down with us to see fair play, but he did not; we went to the field, and they pulled off their costs; Mercer struck first, and the Siestrough Honson was down also in the second first round Honson was down, also in the second, think, and Mercer said: "A few rounds will fix you." On the third round Mercer fell, but he got you." On the inird round Mercer lell, out he got up again, and on the fourth round Houson was down; on the fifth, after several blows, the last, a light one, Mercer fell, and did not get up again; we went to him, and I raised him up and laid him on my knee, and Houson said: "I think he is dead; go and fetch Metcalf; I'll stop here;" I left the body and waked Metcalf, and told him Mercer was dead; the moon was shining during the fight, and no weapons were used; Mercer stag-gered and fell after the last blow.

SUICIDE FOR LOVE OF HOME.—The Rising Sun, Ind., Visitor, states that Mrs. Mary Montgomery, a widow aged about 65, who had lived on a farm in Switzerland co., Ind., for forty years, recently, at the solicitation of her children, sold her property and was about to remove to Rising Sun. Her attachment to the locality where she had spent so long a time, and the excitement of removal, however, so agitated her, that in a fit of frenzy she cut her throat, and was found dead in her bed, a day or two before the time fixed for her departure.

Business in New Orleans.—Business continues to increase rapidly, not withstending the prevalence of the epidemic, which, however, is now abating in earnest, and within a fortnight, probably, will have entirely disappeared. The tide of commerce and population will then pour in with great rapidity, at thousands are already impatiently whiting to take partin the prosperous season about to be inangurated.—Picagune.

SUCCESS OF THE STRAM PLOW -The State Board STECESS OF THE STEAM PLOW—The State Board of Agriculture of lilinois offered a premium of \$5000 for steam plows. It was expected that three different inventions would be exhibited and tested at the State Fair, but only one was on the ground. That was Fawke's locomotive steam plow, Lancaster, Pa, which excited great interest among the prairie farmers, and performed well. The machine and apparatus, with fuel and water, wairhs only about seven tons, and by the nee of a and slipping on hard, smooth ground, is overcome. The steam plow is easily managed, and is de-scribed as a cross between a lacomotive and a ten der, combining the essential elements of both, mounted on two guiding wheels and a huge roller. The prairie ground on which it was tried was baked as hard nearly as a brick, but the engine turned six furrows side by side in the most workmanlike manner.

The California Election. The recent election in California is not at all flattering to Forney and the rest of the Democrats of his school, who have become the unrelenting enemics of Mr. Buchanan's administration. The people there have elected 78 Administration Democrats, against 42 of the combined opposition consisting of Know Nothings, Black Republicans, Abolitionists, and renegade Democrats. The legislature upon joint ballot will give a majority of 38 for Mr. Buchanan's administration.

In the U. S. Senate, last winter, Broderick op posed the resolutions passed by the California Legislature, instructing him and Gwin to go for the admission of Kunsas under the Lecompton Constitution, as recommended by the President, and requesting the representatives of that State to do likewise. Broderick swore that this was all wrong, and that four fifths of the people of Cali fornia would regudiate these resolutious. Gwir said the people of his State would indorse them. The people have now spoken on the subject, and they have shown that Gwin was right and that Broderick was wrong. It does not appear that the Kansas policy of the administration was the only question at issue, but as that policy was known, and as the administration was sustained, it is a fair inference that the Democracy of the President was liked better than that of Broderick and his school of administration oppouents.

This result will probably assist Douglass still more in getting back fully into the Democratic ranks. His opening speech at Chicago, on the 9th of July last, was not as Democratic as Black | for this day's race are as follows: Republican, but he saw at once that that speech would not do. He discovered that Lincoln would get the Black Republican strength, and that he must look to his old friends, the Democrats, for support or be defeated. At once he lifted his voice against Liucoln, and through him against Black Republicanism, Abolitionism and free niggerism, and he has been hitting these abominable isms beary blows ever since. If he is elected to the U. S. Senate, he will owe the position to the Democracy, whom he no doubt thought of disregarding when he opened the present campaign in Illinois. He will then see who are his friends, and Marine Hospital in this city, referred to in a pnraeven in his ripe years will learn a lessson not scon to be forgotten.

Between Douglas and Lincoln we have, as Southern Democrats looking at a Northern and local controversy, expressed a decided preference for Douglas. We gave our reasons for this preference in unmistakable terms. The South, however, has but little to do with this controversy, and the less she says about it the better. Let it remain what it now is, a Northern fight. When Douglas shalt do something more than is deemed necessary to seemic him a Northern and local vic tory over Elack Republicanism, Abolitionism, and free niggerism, the South can then give its opinon of hun in full, while the nation, and not a sinele State is speaking.

Forney, Now and Then.

In 1-51, Col. Forney, of the Philadelphia Press rendered himself conspicuous for conducting the canvass in Pennsylvnnia in favor of the Demorracy and against the Black Republicans. At the same time, he became notorious for taking i into his crazy noddle that he had elected Pres. lent Buchanan.

In 15%, this same Forney is rendering himself conspicuous for conducting the canvass in Penn sylvania against Democracy and in favor of Black Republicanism. He is also notorious now for taking it into that same turned head that he is worthy to quarrel with President Buchannn. The poor man was mistaken in supposing that

he elected Buchanan, and he is equally mistaken in supposing that he is great enough to create any sensation in behalf of his own little self in the popular heart, by insisting upon a quarrel with the President of the United States. Know Nothing and Black Republican papers that hate the President, hate Democracy, bate the South, love the North, and don't care a cent for the Union, will copy his articles and commend his course, but we shall soon hear the last of poor Forney. He has not the bottom to keep up a long excitement, nor is there anything in his course to make a single friend that is worth having.

The poor fellow has no doubt grown so awfully

wrathy, because he did not get a seat in Mr. Buchanan's cabinet-a place for which he was not fit, and for not appointing him to which the country is under lasting obligations to the President. It is a wonder that Forney's head did not sp lit wide open when the idea of his having elected the l'resident got into it, but as it did not burst with that thought, it is not wonderful that a vision of the eabluet or anything else except a sensible thought should have entered such a noddle. The best way to dry up the wrath of Col. Forney, is for the Democracy uot to notice him. Let the Black Republicana, Know Nothings, etc. take him. They are welcome to him. The Democracy have no further use for him. We hope the opposition will have a good time with such an acquisition to their ranks.

The Gubernatorial Race. The Ashland Kentnekian, a first rate Demo cratic weekly, published at Ashland in Greenup county, and edited by a beautiful and talented ludy, thus speaks of the gallant Preston in connection with the canvass for Governor:

nection with the canvass for Governor:

The Democratic press throughout the State seem to unite in proclaiming the probable nomination of Col. Presion for Governor, at the convention of that party to be held in Frankfort next January. The well known and established popularity of this gentleman renders his nomination very desirable. Some papers, we see, are suggesting the possibility of the Colonel coming out in opposition to Ilon. Humphrey Marshall, for Congress. This idea, however, is very indefinite, and the probability is that Col. Preston will be the next Governor of Kentucky.

NEW YORK, Oct. 6.- Nothing was saved from e Crystal Palace excepting one hose carriage if ire ladder truck, and some half dozen triffing articles on exhibition. The whole number of entries of articles deposited was 3,900.

Nothing is left of the palace but the iron towers at the angles and a small portion of the iron sides. Everything combustible about the building and contents were reduced to ashes. The iron parts of the machinery and the framework of the building, are all one indistinguishable mass of rains. The glass is fused into large masses. The report that one man was killed is untrue. There was no loss of life whatever, and no severe injuries to any one. The police and the managers of the institute are busy in investigating the origin of the disaster.

BY 25 PER CENT, IN THE UNITED STATES!

TRIPP & CRAGG. NO. 109 FOURTH STREET, LOUISVILLE, KENTUCKY, Sole Agents for Kentucky and Indiana.

NUNNS & CLARK'S Improved New Scale Planes are so well aml favorably known in tids market, and throughout touch, tone, and durability, and they speak so well for themselves, that they need no word of commendation from any one.

sre new Pianos in this market, but they are well known in many sections of the country as an A No. I instrument. Competent judges who have tried them promounce them fully equal, if not superior, to the Steinway & Son's Pianos. They are a beautiful, highly finished instrument, and we can sell them at three-fourths the price of a Chickering Piano, as we do not have to pay anything for their name or reputation. We still keep a full supply of the New and Improved Scale of Chickering A Son'a Grand, Paulor tirand, and Square Pianos, and as we are Cash Dealers in them, we can sell them unusually low for cash. We have also several other makes of Pianos, all of which we warrant to give perfect satisfaction. We respectfully invite strangers visiting the city during the Fair, and all others in want of Pianos, to call and examine our complete stock, for we are selling exceedingly low for cash. From Washington.

Washington, Oct. 6.—Judge Bowlin to-day had a long interview with Secretary Cass, on the subject of his mission to Paraguay. He will to-morrow receive his instructions, the prominent features of which are that President Lopez be required to make an apology for the insult to our flag; to the city a vast number of strangers, which enlivened the cast well as the appearance of the city, with ures of which are that President Lopez be required to make an apology for the insult to our flag; to make reparation to those citizens of the United States who were driven ont of that country, and to acknowledge his obligation to satisfy all other demnnds for redress. The amount of Indemnity to be ascertained, probably, through a board of commissioners; that a treaty be negotiated and some guarantee obtained for the opening of the La Plata and its tributaries, by the removal of restrictions upon trade in those waters. Only one vessel, the Fulton, carrying the commissioner, will at first proceed to Assumption. Should be succeed in his objects, he will forthwith return to Washington, bringing with him the convention. But in the event of an entire failure, he will direct Commodore Shubrick to send up the flect, and with it to carry out the distinctly defined policy of the Administration. The fleet will, after its business in Paraguay, show itself in several of its business in Paraguay, show itself in several of the South American States, particularly in those in which our government has long had unsettled

accounts.

The Washington Union of this morning, contains the following: We understand that the contract of Mr. Lawrence Myers, of Philadeldhia, for cast iron pipes for the Washington aqueduct, was yesterday forfeited on the recommendation of the engineer in charge of the work, for the reason that the contractor had not complied with its provisions, by delivering the 80 inch pipes within the time specified, viz: the 1st of October. The contract was given to Mr. Myers, though he was not the lowest bidder, because he offered to deliver these pipes within the specified time. It is clearly proper, therefore, having failed in the condition of the contract, that it should be forfeited.

We may also state that as pipes are required for the service of the aqueduct as soon as possible, we presume they will be purchased from our ble, we presume they will be purchased from our own makers, who may be able to deliver them soonest, and thus this matter, which has been a sore trouble to some of our friends in Penusylva-uia, will, be settled satisfactorily to all parties, ex-cept the defaulting contractor.
